

FOUNDED ON & INSPIRED BY THE INDOOR-OUTDOOR LIVING EXPERIENCE.

Our products have been developed by a team with 40+ years of manufacturing experience within the fenestration industry. Our screen solutions are applicable for most any window and door application, or any transition opening. We specialize in every type of opening from traditional patio doors, to screen porches, garages, man caves, and any other opening your home or business may have. With custom sizing and design available, our products are easily adaptable to fit your space. Integrate Screen Solutions offers solutions for remodel, new construction, retro-fit, residential and commercial.

screen solutions

PROUDLY MADE IN THE USA

Integrate Screen Solution manufacturers quality products and we fabricate all of our screen solutions in-house. This includes powder coating, which gives us the ability to provide you with a quality color matched product without affecting lead times. Our products are designed and engineered to fit the space you need them to. We provide custom sizing up to ten feet tall and 34 feet wide for those grand spaces you want to protect. Engineered aluminum extrusions for added strength and durability against the elements for all of our products, including corner configurations.
