# RETRACTABLE SCREEN SYSTEMS

Custom made for large openings,  
corners & large format door systems.

## COMPETITIVE ADVANTAGES:

Robust aluminum extrusions to  
support larger screen systems

Slim 5/8" jamb depth, non-intrusive  
to clear opening of a door system

Capable of 10' height and 20' width  
with single cassette

In house color matching  
and powder coating

10-Day manufacturing lead time

Custom sizing without  
impacting lead time

100% Polyester screen mesh to  
resist fading and deterioration

Field reversible for operational  
& collection direction of cassette

Open corner configurations

Integrate exclusive wheel mould  
for smooth operation

Integrate exclusive milled jambs for  
flush mounting to door systems

Flush operational handle for  
clearance of door systems

Minimal components for  
easy install and serviceability
